

PROQUIP, S.A. is dedicated to the distribution and manufacture of chemical products for the general industry, as well as specialties focused on the leather industry and wastewater treatment sector, including research and technical advice for clients.

The philosophy of PROQUIP, S.A. is aimed at allocating the necessary efforts and resources to ensure the quality of its products and understand the specific needs of each client to offer the required service.

The organizational priorities are: workplace safety and respect for the environment, organizing all processes based on sustainability criteria.

The Management of PROQUIP, S.A. guarantees the provision of its services based on the aforementioned excellence, and for this reason, it establishes the following commitments in this Quality Policy:

- Comply with all requirements, whether legal, regulatory, contractual, or of any other type, that affect the activity of our products or services.
- Carry out our activity by continually improving management through effective and efficient control of processes, along with the establishment and periodic review of objectives.
- Promote the understanding and dissemination of our Quality Policy, both within and outside the organization, through staff training and communication with clients and suppliers.
- Foster an enriching work environment with activities that promote relationships between people, teamwork, healthy habits, and the prevention of any type of sexual harassment, gender-based harassment, or bullying, for which the company's Management will apply a zero-tolerance policy.

All commitments subscribed by PROQUIP, S.A. aim to achieve the full satisfaction of its stakeholders through the proper compliance with the requirements defined by the international standard UNE – EN ISO 9001, based on a Quality Management System that encourages continuous improvement, with the goal of driving responsible growth and the consolidation of the company in the market.

The Management,
